COMMENTS ON REASONS FOR PATENABILITY

Sir:

Applicants thank the Examiner for allowing the claims. Applicants note, however, that the specific language used by the Examiner in describing the allowed claims does not match the language used in each claim. For example, claim 1 does not include the specific language "said sensor sending a signal to an internal processor in response to said sensed environmental condition."

No fees are believed to be due in connection with this paper. However, if any such fees are due, please charge any fees that are due to deposit account No. 50-3355.

Respectfully submitted,
